For the assistance of the Membership Committee and Council, please indicate your present position in the hierarchical tree of your organization.

Key Objectives of the Institute

The key objectives of the Institute are to identify the needs of its members and to initiate and give effect to the means whereby the requirements for technology and scientific knowledge of the minerals and metals section of the Southern African economy are satisfied; and furthermore to represent and promote the interests of its members.

Mission

According to its charter, the Institute is committed to:

- render professional services of high quality to its members and to continually improve these services by keeping abreast of technological developments
- apply professional ethics in all its activities and encourage members to follow suit
- fulfil its obligations towards the community and the environment;
- continually strengthen its image as a dynamic organization by playing a leading role in the initiation and implementation of new ideas and by organizing events around topical themes
- diligently promote the interests of its members and to represent them in a competent manner
- bring the mining and metallurgical fraternity, research and education personnel, and students, together in one organization
- judiciously anticipate the needs of members.

This commitment assists in ensuring that the needs for technological and scientific knowledge of the minerals and metals sectors in Southern Africa are met.

Objectives

The main objectives of the Institute are to:

- provide a corporate voice for the technical professions
- represent and act as spokesman for its members

- promote the appropriate interests of its members
- actively encourage contact between members and strengthen fraternity ties
- act as guardian for the ethics of the fraternity
- uphold high professional standards
- aid and promote technology transfer
- promote careers in science and technology for the Southern African community
- stimulate entry into the industry by people with the appropriate mix of skills
- ensure that the scientific and practical needs of the minerals and metals sectors of the Southern African economy are well served
- stress the importance of the mining and metallurgical industry in the Southern African economy
- ensure the adequate flow of qualified, highly skilled manpower into the mining and minerals industry.

Incentives to join the SAIMM

- Receive the *SAIMM Journal* with a balanced content and of a high standard which serves as a communication medium to keep members informed on matters relating to their professional interests.
- The opportunity to attend congresses, symposia, colloquia, schools and discussion groups at competitive prices and qualify for Continuing Professional Development (CPD) points. Members attend such events at a discount.
- Participation in technical excursions and social events which creates further opportunities for inter-active professional association and fellowship.
- To make a contribution to the minerals industry in Southern Africa.
- The opportunity to network with a wide cross-section of professional people in the minerals industry.
- Official recognition of achievements.
- Members of the Institute who are registered with ECSA will receive a rebate on their ECSA fees.
