

MANAGEMENT TECHNIQUES IN THE MINING AND METALLURGICAL INDUSTRY

CONTENTS

THE PROFESSIONAL MANAGEMENT APPROACH

1. The role of top management in the 1990's, B.R. van Rooyen
2. The evolution of management - Autocratic to participating, G.K.A. Roodt
3. Changing the management climate of an enterprise, Dr J.B. Maree
4. Management by objectives at Iscor - an integrated approach, W. van Wyk
5. Performance management for the 1990's - the integration of management systems, C.O. Esterhuysen, J.P. Deetlefs & C.A. Wessels

MANAGEMENT FOR EXCELLENCE

6. The management approach to achieve improved productivity, G. Geyser
7. Entrepreneurship, J.J. de Bruyn
8. The key determinants of organisation climate - delegation, communication, interpersonal relations, motivation and innovation, Prof J.J. Coetzee
9. The Gold Fields Group Productivity Organisation, B. Moore
10. A management approach to research and development that leads to technology transfer, Dr P.R. Jochens
11. Management action to create sound industrial relations, R.M. Godsell
12. Rationalisation and the effective use of human resources, B.E. Burgess & M.D. Leech
13. Aspects associated with the management of a large mining complex, F.J. Bayley
14. Management aspects playing a role in the management of a small mine, C. Heever
15. Management aspects playing a role in the management of a large integrated steel works, K.W.V. Robertson
16. Management aspects playing a role in the management of a large extractive metallurgical plant, J.L. Taylor

MANAGEMENT SUPPORT SYSTEMS

17. Communication and control systems for improved management of underground mining operations, D.A.J. Ross-Watt & P. Nienaber
18. Productivity and the service function, J.W. Wilson
19. Using consulting groups in management, Dr O.K.H. Steffen & Dr C.J. Fauconnier
20. Using research in management, Dr H. Wagner & Prof N.C. Joughin
21. The role of effective management information systems :-
 - a) The changing role of information technology in the mining industry, J. Bedeker
 - b) Integration of systems in support of management decisions, H.A. von Dürckheim
 - c) "In Search of simplicity" - Information management tools : their future and their potential impact on the corporation, W. Grulke
22. Can management benefit from technical audits, D.B. Mostert

PROFILE OF AN EFFECTIVE MANAGER

23. Management versus leadership, Dr. D.J. Gouws
24. Qualities of an effective professional manager, Prof F. van Graan & D.K. Boshard
25. Management training and development : the elements and the necessity therefor, Dr F. v. N. Cilliers
26. The selection of managers planning for management succession : the techniques and integrated systems, G.J. Visagie
27. Aspects of the management of loss control and its role in the mining and metallurgical industries, A.J. Gill
28. Demands which the managing of the environment creates for the managements of the mining and metallurgical industries, H.E. Lombard
29. Management aspects of risk control and its role in the mining and metallurgical industries, S. Winks
