

## WESTERN MINING CORPORATION LIMITED

### KAMBALDA NICKEL OPERATIONS

INVITES APPLICATIONS FOR THE POSITION OF

## PLANNING ENGINEER

**Duties:** The successful applicant will be responsible to the Planning Superintendent for long and short term Mine Planning. The current expansion programme requires production to be derived from new mines, using the most modern equipment. Considerable forward planning is required.

**Qualifications:** Applicants should possess a degree or diploma in Mining Engineering.

**Experience:** Five to eight years' experience in hard rock mining is required of which some part has been spent on mine planning.

**Conditions:** Salary to \$7,000. Ample opportunity for further promotion exists in this expanding organisation. The person appointed will be eligible for benefits including discretionary annual staff bonus. An executive home will be provided in the new township with services at nominal rates. Primary schooling is available at Kambalda and the bus service operates for post primary students attending schools at Kalgoorlie.

Reasonable relocation expenses within Australia will be met by the Corporation. Employment is conditional upon passing the necessary medical examination for admission to the Western Australian Mining Industry.

Written applications, which will be treated in strict confidence, stating nationality, age, marital status and setting out qualifications and experience should be addressed to:

The General Manager Operations—W.A.,  
Western Mining Corporation Limited,  
Post Office Box 80, BELMONT, W.A., 6104.

The envelope and application to be marked—  
“Attention: Senior Mining Engineer”.
