

Introducing your Council . . .

Dr C. J. Fauconnier, Pr. Eng., has a D. Eng. from the University of Pretoria, an M.B.A. from the University of Oregon, and an M.Sc. (Eng.) and B.Sc. (Min. Eng.) from the University of Pretoria. He holds a Mine Manager's Certificate—Coal and a Mine Manager's Certificate—Metaliferous. He is a Fellow of this Institute and of the Mine Ventilation Society of South Africa; a member of the Engineers' Association of South Africa, the American Beta Gamma Sigma Society, and The Engineering Foundation; and is Vice Chairman of the Mining Alumni Association of the University of Pretoria. He gained his mining experience mainly on collieries, and is now Technical Manager of the Gencor Coal Division.

Dr B. K. Loveday obtained a degree in Chemical Engineering at the University of Natal, where he also obtained a Ph.D. in the kinetics of froth flotation. He worked at the National Institute for Metallurgy, where he was involved in a variety of projects including the production of UF_4 and UF_6 , the solvent extraction of copper and nickel, and computer simulation of flotation and grinding. After extensive work on the scale-up and control of autogenous mills, he was appointed Director of the Ore-dressing Division in 1977. In 1980, he was appointed Manager of Anglo American Research Laboratories, where he is at present.
