

Objectives

The main objectives of the Institute are to:

- provide a corporate voice for the technical professions
- represent and act as spokesman for its members
- promote the appropriate interests of its members
- actively encourage contact between members and strengthen fraternity ties
- canvas for new members
- retain members
- act as guardian for the ethics of the fraternity
- uphold high professional standards
- aid and promote technology transfer
- promote careers in science and technology for the South African community
- stimulate entry into the industry by people with the appropriate mix of skills
- ensure that the scientific and practical needs of the minerals and metals sectors of the South African economy are well served
- stress the importance of the mining and metallurgical industry in the South African economy
- ensure the adequate flow of qualified, highly skilled manpower into the mining and minerals industry.

Reasons for joining the SAIMM

- Receiving a monthly Journal with a balanced content and of a high standard which serves as a communication medium to keep members informed on matters relating to their professional interests.
- The opportunity to attend conferences, symposia, colloquia, schools and discussion groups at competitive prices. Members attend such events at a discount.
- Participation in technical excursions and social events which creates further opportunities for inter-active professional association and fellowship.
- To make a contribution to the minerals industry in South Africa.
- The opportunity to network with a wide cross-section of professional people in the minerals industry.
- Official recognition of achievements.
- Company Affiliateship is a tax deductible contribution to industry.

For the past 120 years ...

The Southern African Institute of Mining and Metallurgy

has promoted

Technical Excellence in the Minerals Industry

“We are committed to providing technical excellence to the professions of mining and metallurgy and strive to continuously stay at the cutting edge of new developments in the mining industry”

Dynamic

Professional

Excellence

Key Objectives of the Institute

The key objectives of the Institute are to identify the needs and interests of its members, to initiate and give effect to the means whereby the requirements for technology and scientific knowledge as it applies to the minerals sectors of the Southern African economies are satisfied. Furthermore to represent and promote the interests of its members.

Mission

According to its Constitution, the Institute is committed to:

- Promote and communicate technological and scientific knowledge to the mining and metallurgy sectors
- Render professional services of relevance and exceptional quality to its members and to continually improve these services by keeping abreast of technological developments
- Apply professional ethics in all its activities and encourage members to follow suit
- Fulfil its obligations towards the public, the community and the environment
- Continually strengthen its image as a dynamic organization by playing a leading role in the initiation and implementation of new ideas and by organizing events around topical knowledge and technology themes
- Diligently promote the interests of its members and to represent them in a competent and appropriate manner
- Bring the Southern African mining and metallurgical fraternity, research and education personnel, and students, together in one organization
- Judiciously anticipate the needs and interests of its members
- Promote the registration of its Corporate Members with the relevant registration bodies established by statute.
