The objective of the conference is to provide a forum for the dissemination of information relating to the latest tools and techniques applicable to all stages of the diamond industry, from exploration through mine design, processing, to cutting, marketing, and sales.

EVENT FORMAT

At this point in time, the event is planned as a hybrid conference with international participation opportunities for delegates and speakers. It is also planned to hold technical visits to nearby facilities if possible. However, as we are still in Lock down as a result of COVID-19, this will be constantly reviewed, and if it appears that the effects of the pandemic are still such as to pose a threat to the health and safety of delegates, this will be changed to a digital event.
