### COMPANY HISTORY

Phambili Solutions was founded 2013 by Lucia Ntwampe. She identified a need on the job coaching need in the trackless mobile machinery (TMM) training industry, she noticed that operators could not effectively utilize the mechanised equipment. This was due to the shortage of skilled operators in the mechanised mining industry.

## WHAT WE DO

Phambili Solutions offers tailor made training solutions for underground trackless mobile machinery. We understand that the mechanised mining method is fairly new in South Africa and as a result there is a shortage of skilled mechanised equipment operators. With the new improvements in mind Phambili Solutions offers tailor made training solutions that seeks to identify areas of need by conducting operator evaluations and together with the client developed training interventions that are aimed at empowering the operators by giving them knowledge and skill to efficiently operate the equipment ensuring that mining companies are able to meet the set production target.
