INTERNATIONAL CONFERENCE 2021

18-19 OCTOBER 2021

Driving the future
of high-tech industries

The conference focusses on primary production of REEs, with specific emphasis on geology, exploration, beneficiation, refining, applications, policies, environmental aspects, new technological developments, market opportunities, and future outlook of the REEs industry. With Southern Africa driving the growth in the REE industry, there is an opportunity to establish regional centers of excellence in REEs innovation. Breakaway sessions will provide more insights on the developments, challenges and future outlook of the REEs industry.
