

INTERNATIONAL
**MiNE HEALTH
AND SAFETY**
CONFERENCE 2019

31 October–1 November 2019

LIST OF ABSTRACTS

What really drives safety

The Kinetic Leadership Institute

The assessment of respiratory illnesses risks posed by Tailings Storage Facilities enriched in heavy metals (Se, As, Cd, U, Pb and Cr) through air pollution by dust,

University of Johannesburg

The Assessment of Injuries for Women Working in Gold and Platinum Mines of South Africa

University of Johannesburg

Impala mining harm prevention model – bottom-up risk based approach

Impala Platinum Limited

Developing a Resilient Safety Culture

JVR Safety

Mindfulness and Safety

Impala Platinum Limited

Safety Decision:- Dashbord Information Management (Analysis & Review)

Impala Platinum Limited

An Evaluation of the Bond Strength of Multiple Resin Bolt and Capsule Combinations through Laboratory Testing and Applied Methodologies

Impala Platinum Limited, Groundwork

The Effectiveness of Section 23 of the MHSA in the Gold and Platinum Mines of South Africa

University of Johannesburg

Benchmarking the Enforcement of Section 23 of the MHSA

University of Johannesburg

Zero Harm and Twenty-first Century Mining: Taking advantage of digital technologies while understanding the technology limits in a human-centred future of work

University of the Witwatersrand

OHS Risk Management in Mining – Then and Now

University of the Witwatersrand

Reflections on case study research: Where from, and where to for worker elected health and safety representatives?

University of the Witwatersrand

Considerations relating to fire dynamics and management thereof during inclined conveyor fires, Prysm Ventilation Services

Impala Platinum Limited

Shift cycles and fatigue in the South African mining industry,
CSIR

Digitalization of safety, health and environment through the OIS solution

Anglo America

Diesel Particulate Matter (DPM) exposure control in the underground operations of Anglo American Platinum
Anglo American, plc

Mist Capturing and Abatement in Non-Ferrous Metals Electrowinning

Metalix

Beyond 'Zero Harm'.....Wellness in the workplace in the South African mining industry

Sibanyestill Water

A critical investigation into underground missing persons and the applicable Through-the-Wire, Through-the-Air and Through-the-Earth communications technology

University of Pretoria

Fourth Industrial Revolution

AMCU

If anything is worth doing, do it with all your heart

Sibanyestill Water

SIM 160902: Assessment of the ergonomics design of self-contained self- rescuer (SCSR) devices for use by women in mining

Council for Scientific and Industrial Research (CSIR)

SIM 170603: The reproducibility of digital x-ray and analog x-ray readings for medical surveillance in the South African mining industry (SAMI) to determine the reproducibility of digital and analog chest radiography for detection of silicosis and silicosis plus pulmonary tuberculosis

Mine Health and Safety Council

SIM 150601: Develop methodologies for the measurement of diesel exhaust emissions (DEE) and diesel particulate matter (DPM), Council for Scientific and Industrial Research (CSIR) Improvement in monitoring of seismicity in a mining district, Council for GeoScience SAIMM: diversity and inclusion in the mining industry (DIMI) – keeping the conversation fresh, and moving forward, Golder Associates (Africa) (Pty) Ltd

University of the Witwatersrand
