YPC Lunchtime Webinars

South Africa's Youth is the most valuable resource for the transformation of the mining & minerals industry

15 June 2022 | 12:00-13:00

Online *via* Zoom

The future of the mining and minerals industry depends on the youth and young people are the key. However, if they are neglected, this could exacerbate unemployment numbers, skills shortages and inequality while threatening the future sustainability of the industry.

As part of Youth Day celebrations join the YPC as current and former members converge to discuss the various challenges young people face, how the youth can overcome them and the role of the YPC in supporting these efforts. Gaining competitive advantage, skills and capabilities required, tackling unemployment and growing a solid career in the mining and minerals industry are some of the topics that will be discussed.

This event will be a celebration of young people, **it's time to harness your youth.**
