

MULTOTEC

INTERNATIONAL EXCELLENCE

Multotec proudly upholds the standards set by the International Pierre Gy Sampling Association, ensuring correct sampling principles and constitution.

GLOBAL PRESENCE

With installations worldwide, Multotec delivers compliant sampling equipment right to your doorstep.

EXPERT SERVICES

Our branches in Chile, Canada, Brazil, Australia, Mozambique, Zambia, Botswana, Ghana, etc. offer general assembly, services, maintenance, and support. Critical tolerance sampling components are meticulously crafted at our Spartan workshop, South Africa.

ACHIEVEMENTS

Last year, we supplied 310 fully assembled machines, 31 620 components, and an impressive 186 tons of steel for sampling equipment. Our workshop proudly delivered the world's largest hammer sampler and the world's largest two-in-one sampler.

WHERE THE THEORY OF SAMPLING COMES TO LIFE!

In line with the Eleventh **World Conference of Sampling and Blending**, Multotec invites you to explore the heart of our operations. Witness the **Theory of Sampling** come to life as it bridges the gap from academic interest to real-life engineering, design, manufacturing, and assembly of cutting-edge sampling equipment.

Join us on Friday, May 24, 2024

Time: 09:00 - 15:00

RSVP: willems@multotec.com

Cell: +27 71 604 2941

Don't miss this exclusive chance to visit our facilities and witness the precision behind our sampling equipment first-hand.
